0.004 g/mL (S-fraction) and 0.005 g/mL (H-fraction), respectively, similar to that seen for its whole extract. Our findings are in agreement with those of Srivastava et al. \[@B18-medicina-55-00271\], who showed that the inhibition of cancer cell proliferation by the S-fraction of *M. indica* at a concentration of 0.1--0.2 mg/mL, and suggested that it was mediated through induction of apoptosis. Similarly, Mehrotra et al. \[@B22-medicina-55-00271\] demonstrated that the S-fraction of *M. indica* inhibited the growth of cancer cells by causing cell cycle arrest in the G2/M phase and enhanced the expression of p53, p21, and p27, which are known to be involved in cell cycle progression. In our study, the H-fraction of *M. indica* exhibited cytotoxicity at a concentration of 0.04 g/mL, which could be due to the presence of polyphenols such as luteolin and quercetin, which have been shown to be cytotoxic to various cancer cells \[@B31-medicina-55-00271\],[\@B32-medicina-55-00271\]. Moreover, the H-fraction of *M. indica* increased the expression of p21, a protein that is known to play a critical role in cell cycle progression by blocking cells in the G2/M phase of the cell cycle \[@B33-medicina-55-00271\].

5. Conclusions

{#sec5-medicina-55-00271} ===== The present study investigated the cytotoxicity of a hot-water extract, ethyl acetate fraction, and S-fraction of *M. indica* on cancer cells. The S-fraction exhibited a higher level of activity against cancer cells. This result was supported by cell cycle analysis, which showed that the S-fraction induced G2/M phase arrest in cancer cells. Moreover, the S-fraction inhibited the growth of cancer cells by inducing apoptosis. Further analysis of the active ingredients in the S-fraction of *M. indica* should be conducted to identify the compounds

What's New In AutoCAD?

Choose a drawing and update directly on screen with rich editing features and workflows. Smart Drag: View your drawing as a single image, so you can see it from any angle. Keep the extruded lines and text neat by controlling the placement of the tools (audio: 1:22 min.) In the World Wide Web, there are more than 1,000 web sites containing information about Autodesk's products. In this video, we'll take a look at some of the Autodesk products that help you use CAD to create, organize and analyze data. You can find these products in the 2019 Autodesk Selections Guide. Drawings for the web: Work from your desktop and export directly to the web, so that your colleagues can view your designs in 3D, use them in online services and mobile apps, and share them in their favorite social networks. Autodesk Authoring Engine: Open your designs in Autodesk Authoring Engine, a web-based interface that lets you edit, insert, and animate geometry, objects, and content. Make revisions in your design with ease, and adjust the look and feel of your work without losing data. Authoring Engine also includes collaborative design tools, letting you collaborate with your colleagues without requiring them to download software. You can find these tools in the Autodesk 2020 Selections Guide. 360 video and immersive reality: Explore your designs in 360 VR, a new way to view and interact with your designs. Take your work on the go with Windows Mixed Reality, one of the first interfaces to provide real-time collaboration with other designers. Authoring tools: With Autodesk's Authoring Tools, you can collaborate with your team, manage and share your designs, and analyze and report on your work. You can find these tools in the 2019 Autodesk Selections Guide. There's a lot more in Autodesk, but what are you waiting for? Get Started with Autodesk 2020! If you're ready to start creating designs that you can share with the world, AutoCAD should be at the center of your workflow. Autodesk 2020 is the perfect choice for all types of professionals who want to take advantage of the new features and capabilities in Autodesk software.

System Requirements For AutoCAD:

In order for this mod to work, it requires SPARKLE_UPDATE_MOVES to be set to 1 (this can be done through the Developer Menu). Otherwise, the mod will appear to do nothing. In the future, the mod will use the SPARKLE_UPDATE_MOVES setting for its default functionality. This mod works in conjunction with the Temple update. For that reason, there are two separate entries in the mod overview. The mod can be used together with the Temple update in the same playthrough. However, you cannot use the mod and the
