This magazine reflects the world of fashion on the one hand, and this fashion with some.Osteoarticular manifestation of imipenem/cilastatin-induced encephalopathy. To evaluate the possible association between the administration of imipenem/cilastatin and the development of osteoarticular manifestations. We report a 12-year-old girl who developed fever and pain in her left knee immediately after admission to our pediatric emergency department. She had previously been given imipenem/cilastatin because of a bacterial infection caused by Pseudomonas aeruginosa. She had no serious clinical symptoms. Following the withdrawal of the drug, her symptoms subsided without additional treatment. However, she was 6d1f23a050
